### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 25 March 2004 has been entered.

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the non-return valve specified in claim 13 and the reverse siphon specified in claim 30 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Applicants have provided drawings which are necessary to the understanding of the subject matter sought to be patented. Therefore, since applicants have provided the necessary drawings, the drawings should also illustrate every feature specified in the claims.

3. The drawing informalities noted in the Notice of Draftsperson's Patent Drawing Review, PTO-948, attached to Paper No. 5, mailed on 04 April 2003, must now be corrected. Formal drawings are required in response to this action. Failure to file formal drawings in response to this action will result in abandonment of the application.

4. This application is in condition for allowance except for the following formal matters:

See the matters above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

5. Claims 13-21 and 23-45 are allowed.

6. The restriction requirement is hereby withdrawn in view of the allowance of generic claims.
